Pawtucket Soccers Easy Winners

Rhode Island Football Team Defeats St. Louis Champions,
7 to 1—Bennett Scores Three of the Winning Goals.

New York, March 20.—The St. Louis eleven of St. Louis met its second successive defeat on its eastern tour today, the victors being the Howard and Bulough association football team of Pawtucket, R. I.

The champions of the middle west were completely outplayed, the score being 7 to 1.

The game was practically a match between English and American players, for most of the Pawtucket men were English-born and the St. Louis players all native Americans. The international character of the contest brought out a large crowd of spectators who voted that the honors of the one-sided game easily went to Thomas Bennett, who scored three goals for Howard and Bulough team's goals, and figured prominently in gaining three others.

The weather was cold with a bracing wind but the field was soggy and holding. The first half was fairly even, contested, but the ball was in St. Louis territory most of the time. Bennett scored the first goal after 25 minutes of play and just before the end of the half he was allowed a penalty kick because Peterson had fouled him and his kick duly scored.

The second goal, St. Louis' rallied suddenly and by pretty combination play scored their only tally when McCaffrey kicked a goal from the edge of the goal before the half ended. The remainder of the game was all in favor of the Pawtucket team.

RULES TO PROTECT PATRONS OF BOXING.

Clubs Must Hold Box Receipts For a Time if Bouts Are Stopped.

New York, March 20.—Two new rules for the protection of the public which attend bouts under its jurisdiction were adopted by the New York state athletic commission—the boxing commission today. One rule provides that if a bout is stopped by the referee or by order of the commission for an infraction of the rules of boxing, the club at which the bout is held shall hold all box office receipts for a period of forty-eight hours pending the decision of the commission as to the disposition of the money. The commission advises all spectators to hold their seat coupons until the decision is rendered.

This action was taken as the result of the stoppage of the bout on March 18 between Leach Cross of New York and "One Round" Hogan of California at the Madison Athletic club when Charles White, the referee, disqualified Hogan for hitting in the clinch. This was practically no contest, as the bout was called off in the first round. It is believed that in the future the commission will order money paid for seats to be returned to spectators under similar conditions.

The second rule adopted to prevent sales of tickets at more than the advertised price, reads:

"Prices of admission tickets to the club shall be printed in large type above the ticket seller's window, and shall not be varied."

American Defeats French Billiardist.

Paris, March 20.—J. Ferdinand Poggenburg, the American champion, won from the Frenchman, Lambouret, today in the international billiard championship.

CHEERING NEWS

Imports Considerable Degree of Strength and Activity to Market.

New York, March 20.—Prospects of an early settlement of the British coal strike, increasing signs that our coal dispute may be amicably adjusted and further advances in copper metal, lead and finished iron and steel imported a considerable degree of strength and activity to the stock market today. The buying was of a more substantial character, much of it apparently originating with conservative investors and the large institutions which have held aloof because of seemingly adverse industrial and political conditions.

Further digestion of this country's steady growth in exports, as disclosed in the February statement, was another factor of favorable import. Yet another feature was the resumption of borrowing on a large scale in this market by Germany, a number of 30-day loans having been made at six per cent, with more extensive borrowing for longer periods. The shorter accommodations are believed to have been negotiated in connection with the April settlement in Berlin, which promise to be unusually heavy.

The rise in the copper naturally provoked some discussion regarding further dividend disbursements on Amalgamated Copper and Anaconda shares. While nothing definite is obtainable, it is believed that the Amalgamated directors will increase the prevailing rate, with no change in the amount.

The rise in United States Steel was due to better demand for all kinds of products, a condition which would be neutralized by any discouragement felt over the company's report for 1911, disclosing an enormous falling off in total business for that year. The volume of business in the first three hours was larger than in any similar period this month, and although trading eased off later, it was without effect on prices. Union Pacific, Reading, Lehigh Valley and United States Steel attained their highest level in the last hour. There was also some inquiry for New York Central and for Baltimore and Ohio, which reported favorable earnings for February. American and American Sugar. The closing was almost buoyant, and in no instance of importance were final prices more than a fraction below the best. London was at first a buyer here, but sold later, its operations suggesting profit taking.

About the only discordant note heard during the day arose from the refusal of the Fall River textile manufacturers to grant the wage increases demanded by the operatives.

There was a better inquiry for bonds, especially of the convertible class. Allis Chalmers made a sharp recovery on announcement of friendly receivership proceedings. Total sales, per value, \$3,000,000.

Panama three advanced 1-8 per cent on call.
